4.0 Justification

The BHUSRC saw the need for such enlightening moments and bonding by both staff and students coupled with the possibility that the event will be branded by the title "Bingham University has gone Google.

We have successfully won the heart of Google through the Ambassadorial program which took two (2) of our students to Nairobi, Kenya for a week program. Also our two (2) administrators showed outstanding performances at the faculty training summit held in Lagos (See link: https://sites.google.com/site/gfacultytrainingnigeria/post-event) as seen on the previous link that our image ranks good among prominent Universities in Nigeria under the section "List of Demo Apps Developed at the web technologies workshop".

5.0 Pledge

We pledge that we will adhere to the Bingham University doctrine in the process of organizing and actualizing this anticipated.
